Product Datasheet

Human Oncostatin M (OSM) ELISA Kit BYT-ORB1807288

Artikelname	Human Oncostatin M (OSM) ELISA Kit
Artikelnummer	BYT-ORB1807288
Hersteller Artikelnummer	orb1807288
Alternativnummer	BYT-ORB1807288-48,BYT-ORB1807288-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Oncostatin M (OSM) ELISA Kit...
Detektionsbereich	15.63-1000pg/mL
Sensitivitaet	5.47 pg/mL
UniProt	P13725
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	OSMR

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human OSM. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human OSM and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human OSM, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human OSM. You can calculate the concentration of Human OSM in the samples by comparing the OD of the samples to the standard curve
