Mouse Apobec 1 Complementation Factor (ACF) ELISA Kit BYT-ORB1947223

Artikelname	Mouse Apobec 1 Complementation Factor (ACF) ELISA Kit
Artikelnummer	BYT-ORB1947223
Hersteller Artikelnummer	orb1947223
Alternativnummer	BYT-ORB1947223-48,BYT-ORB1947223-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Produktbeschreibung	Mouse Apobec 1 Complementation Factor (ACF) ELISA Kit...
Detektionsbereich	31.25-2000pg/mL
Sensitivitaet	18.75 pg/mL
UniProt	Q5YD48
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	ACF

Anwendungsbeschreibung	Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse ACF. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse ACF and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse ACF, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm 2 nm. The OD value is proportional to the concentration of Mouse ACF. You can calculate the concentration of Mouse ACF in the samples by comparing the OD of the samples to the standard curve
