Product Datasheet

Human Serglycin (SRGN) ELISA Kit BYT-ORB1947998

Artikelname	Human Serglycin (SRGN) ELISA Kit
Artikelnummer	BYT-ORB1947998
Hersteller Artikelnummer	orb1947998
Alternativnummer	BYT-ORB1947998-48,BYT-ORB1947998-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Serglycin (SRGN) ELISA Kit...
Detektionsbereich	0.16-10ng/mL
Sensitivitaet	0.1 ng/mL
UniProt	P10124
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	SRGN

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human SRGN. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human SRGN and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human SRGN, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human SRGN. You can calculate the concentration of Human SRGN in the samples by comparing the OD of the samples to the standard curve
