Product Datasheet

Human Thrombospondin-2 (TSP-2) ELISA Kit BYT-ORB1948799

Artikelname	Human Thrombospondin-2 (TSP-2) ELISA Kit
Artikelnummer	BYT-ORB1948799
Hersteller Artikelnummer	orb1948799
Alternativnummer	BYT-ORB1948799-48,BYT-ORB1948799-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Thrombospondin-2 (TSP-2) ELISA Kit...
Detektionsbereich	0.32-20ng/mL
Sensitivitaet	0.19 ng/mL
UniProt	P35442
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	TSP-2

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human TSP-2. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human TSP-2 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human TSP-2, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human TSP-2. You can calculate the concentration of Human TSP-2 in the samples by comparing the OD of the samples to the standard curve
