Product Datasheet

Human Brevican (BCAN) ELISA Kit BYT-ORB1949629

Artikelname	Human Brevican (BCAN) ELISA Kit
Artikelnummer	BYT-ORB1949629
Hersteller Artikelnummer	orb1949629
Alternativnummer	BYT-ORB1949629-48,BYT-ORB1949629-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Brevican (BCAN) ELISA Kit...
Detektionsbereich	0.32-20ng/mL
Sensitivitaet	0.19 ng/mL
UniProt	Q96GW7
Proben	Tissue homogenate and Cell lysate
Target-Kategorie	BCAN

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human BCAN. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human BCAN and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human BCAN, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human BCAN. You can calculate the concentration of Human BCAN in the samples by comparing the OD of the samples to the standard curve
