Rat Ciliary Neurotrophic Factor (CNTF) ELISA Kit BYT-ORB1949982

Artikelname	Rat Ciliary Neurotrophic Factor (CNTF) ELISA Kit
Artikelnummer	BYT-ORB1949982
Hersteller Artikelnummer	orb1949982
Alternativnummer	BYT-ORB1949982-48, BYT-ORB1949982-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Rat
Produktbeschreibung	Rat Ciliary Neurotrophic Factor (CNTF) ELISA Kit...
Detektionsbereich	39.07-2500pg/mL
Sensitivitaet	23.44 pg/mL
UniProt	P20294
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	CNTF

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat CNTF. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Rat CNTF and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat CNTF, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Rat CNTF. You can calculate the concentration of Rat CNTF in the samples by comparing the OD of the samples to the standard curve
