## Product Datasheet

### TCR gamma/delta Antibody (Biotin), Monoclonal BYT-ORB2281311

Artikelname	TCR gamma/delta Antibody (Biotin), Monoclonal
Artikelnummer	BYT-ORB2281311
Hersteller Artikelnummer	orb2281311
Alternativnummer	BYT-ORB2281311-0.1
Hersteller	Biorbyt
Kategorie	Antikörper
Applikation	FC, IHC-Fr
Spezies Reaktivität	Human, Primate
Konjugation	Biotin
Produktbeschreibung	TCR gamma/delta Antibody (Biotin)...
Klonalität	Monoclonal
Konzentration	1 mg/ml
Puffer	Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide
Target-Kategorie	TCR gamma/delta

Anwendungsbeschreibung

Application Notes: Flow cytometry: Recommended dilution: 5-15 µg/ml. The reactivity of clone B1 (anti-TCR gamma/delta) may be affected by co-staining with an anti-human CD3 mAb, which is likely to block the epitope recognized by clone B1. When using antibody B1 in a panel that includes CD3, it is recommended to apply a staining protocol in which the B1 mAb is added to the sample and incubated for approximately 15 minutes before adding the remaining antibodies. No washing is required between the staining steps
