JAM A phospho Y280 Antibody, Unconjugated, Rabbit, Polyclonal Preis auf Anfrage BYT-ORB420323

Artikelname	JAM A phospho Y280 Antibody, Unconjugated, Rabbit, Polyclonal Preis auf Anfrage
Artikelnummer	BYT-ORB420323
Hersteller Artikelnummer	orb420323
Alternativnummer	BYT-ORB420323-25
Hersteller	Biorbyt
Wirt	Rabbit
Kategorie	Antikörper
Applikation	ELISA, IF, WB
Spezies Reaktivität	Human
Immunogen	Affinity purified Anti-JAM A pY280 antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to the c-term and phosphorylated at the tyrosine 280 position of Human JAM A protein.
Konjugation	Unconjugated
Produktbeschreibung	JAM A pY280 antibody...
Klonalität	Polyclonal
Konzentration	1.0 mg/ml
NCBI	058642

Puffer	Preservative: 0.01% (w/v) Sodium Azide. Stabilizer: None, Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Reinheit	Anti-JAM A pY280 is directed against human JAM A phosphorylated at the tyrosine 280 position. This product is an affinity purified antibody produced by immunoaffinity chromatography using phospho peptide coupled to agarose beads followed by solid phase adsorption(s) against non-phospho peptide to remove any unwanted reactivities. A BLAST analysis was used to suggest reactivity with this protein from human and feline based on 100% homology for the immunogen sequence.
Formulierung	Liquid (sterile filtered)
Application Verdünnung	ELISA: 5 ug/ml, WB: 1 ug/ml
Anwendungsbeschreibung	Application Notes: This affinity purified antibody has been tested for use in ELISA, IF, and western blot. Specific conditions for reactivity should be optimized by the end user. Expect a band ~ 32.5 kDa in size corresponding to JAM A by western blotting in the appropriate cell lysate or extract
