Product Datasheet

Rabbit Brain Derived Neurotrophic Factor (BDNF) ELISA Kit BYT-ORB2667496

Artikelname	Rabbit Brain Derived Neurotrophic Factor (BDNF) ELISA Kit
Artikelnummer	BYT-ORB2667496
Hersteller Artikelnummer	orb2667496
Alternativnummer	BYT-ORB2667496-48,BYT-ORB2667496-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Rabbit
Produktbeschreibung	Rabbit Brain Derived Neurotrophic Factor (BDNF) ELISA Kit...
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.063 ng/mL
Proben	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rabbit BDNF. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rabbit BDNF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rabbit BDNF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rabbit BDNF in the samples is then determined by comparing the OD of the samples to the standard curve
