Product Datasheet

CD155 Antibody, IgG1, Clone: [SKII.4], Unconjugated, Mouse, Monoclonal BYT-ORB2806648

Artikelname	CD155 Antibody, IgG1, Clone: [SKII.4], Unconjugated, Mouse, Monoclonal
Artikelnummer	BYT-ORB2806648
Hersteller Artikelnummer	orb2806648
Alternativnummer	BYT-ORB2806648-0.1
Hersteller	Biorbyt
Wirt	Mouse
Kategorie	Antikörper
Applikation	ELISA, FC, ICC, IF, IHC, IP
Spezies Reaktivität	Human
Immunogen	The original antibody was generated by immunizing mice with SK-N-S1 human neuroblastoma cells.
Konjugation	Unconjugated
Produktbeschreibung	CD155 Antibody...
Klonalität	Monoclonal
Konzentration	1 mg/ml
Klon-Bezeichnung	[SKII.4]
Isotyp	IgG1
UniProt	P15151

Puffer	PBS with 0.02% Proclin 300.
Target-Kategorie	CD155
Anwendungsbeschreibung	Application Notes: This antibody was used in staining of Daudi-PVR cells and the visualization of its interaction between NK92 using confocal microscopy (PMID: 15034010). This antibody was used in the immunohistochemical staining of cryostat sections of frozen specimens of human lymph nodes and spleen tissues. This antibody was also capable on blocking the interaction between soluble form of PVR (PVR-hFc) and WUCAM/Baf3 cells (PMID: 19197944). The biotinylated antibody can be used for the detection of soluble PVR-hFc in an ELISA (PMID: 20201043). The upregulation of PVR (CD155) in Jurkat cells, when transduced with WPI or HIV-1 NL4-3 strain (VprWT) lentivirus was studied using flow cytometry (PMID: 24045107). This antibody was used for identification of surface expression of DNAM1 ligands on MM cell lines by immunofluorescence staining. This antibody was also used of the immunoprecipitation of CD155 from ARK cell lysates (PMID: 28874810)
