### Human Transforming growth factor-beta-induced protein ig-h3 (TGFB1) ELISA Kit BYT-ORB3146236

Artikelname	Human Transforming growth factor-beta-induced protein ig-h3 (TGFB1) ELISA Kit
Artikelnummer	BYT-ORB3146236
Hersteller Artikelnummer	orb3146236
Alternativnummer	BYT-ORB3146236-48, BYT-ORB3146236-5, BYT-ORB3146236-50, BYT-ORB3146236-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Transforming growth factor-beta-induced protein ig-h3 (TGFB1) ELISA Kit employs a two-site sandwich ELISA to quantitate TGFB1....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

Application Notes: This Human Transforming growth factor-beta-induced protein ig-h3 (TGFBI) ELISA Kit employs a two-site sandwich ELISA to quantitate TGFBI in samples. An antibody specific for TGFBI has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any TGFBI present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for TGFBI is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of TGFBI bound in the initial step. The color development is stopped and the intensity of the color is measured
