Human Complement factor B precursor (pre-CFB) ELISA Kit BYT-ORB3146900

Artikelname	Human Complement factor B precursor (pre-CFB) ELISA Kit
Artikelnummer	BYT-ORB3146900
Hersteller Artikelnummer	orb3146900
Alternativnummer	BYT-ORB3146900-48, BYT-ORB3146900-5, BYT-ORB3146900-50, BYT-ORB3146900-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Complement factor B precursor (pre-CFB) ELISA Kit employs a two-site sandwich ELISA to quantitate pre-CFB....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

Application Notes: This Human Complement factor B precursor (pre-CFB) ELISA Kit employs a two-site sandwich ELISA to quantitate pre-CFB in samples. An antibody specific for pre-CFB has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any pre-CFB present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for pre-CFB is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of pre-CFB bound in the initial step. The color development is stopped and the intensity of the color is measured
