Human RANKL(Receptor Activator of Nuclear factor-kB Ligand) Microsample ELISA Kit BYT-ORB2997267

Artikelname	Human RANKL(Receptor Activator of Nuclear factor-kB Ligand) Microsample ELISA Kit
Artikelnummer	BYT-ORB2997267
Hersteller Artikelnummer	orb2997267
Alternativnummer	BYT-ORB2997267-48,BYT-ORB2997267-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human RANKL(Receptor Activator of Nuclear factor-kB Ligand) Microsample ELISA Kit...
Detektionsbereich	78.13-5000 pg/mL
Sensitivitaet	22.9 pg/mL
UniProt	O14788
Proben	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human RANKL. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human RANKL. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human RANKL, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human RANKL in the samples is then determined by comparing the OD of the samples to the standard curve
