Product Datasheet

Human PSA(ProstateSpecific Antigen) Microsample ELISA Kit BYT-ORB2997268

Artikelname	Human PSA(ProstateSpecific Antigen) Microsample ELISA Kit
Artikelnummer	BYT-ORB2997268
Hersteller Artikelnummer	orb2997268
Alternativnummer	BYT-ORB2997268-48,BYT-ORB2997268-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human PSA(ProstateSpecific Antigen) Microsample ELISA Kit...
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.096 ng/mL
UniProt	P07288
Proben	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human PSA. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human PSA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human PSA, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human PSA in the samples is then determined by comparing the OD of the samples to the standard curve
