| Kategorie                | Proteine/Peptide                                                                                                                                                                                                     |
| Produktbeschreibung      | This Recombinant Human CD44 antigen (CD44), partial, Biotinylated (Active) spans the amino acid sequence from region 21-220aa. Purity: Greater than 92% as determined by SDS-PAGE....                                |
| Molekulargewicht         | 51 kDa                                                                                                                                                                                                               |
| UniProt                  | <a href="#">P16070</a>                                                                                                                                                                                               |
| Puffer                   | Lyophilized from a 0.2 µm sterile filtered PBS, 6% Trehalose, pH 7.4                                                                                                                                                 |
| Quelle                   | Homo sapiens (Human)                                                                                                                                                                                                 |
| Reinheit                 | Greater than 92% as determined by SDS-PAGE.                                                                                                                                                                          |
| Formulierung             | Lyophilized powder                                                                                                                                                                                                   |

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | <p>Biological Origin: Homo sapiens (Human). Biological Activity: Measured by its binding ability in a functional ELISA. Immobilized Anti-CD44 Mouse Monoclonal Antibody at 2 µg/ml can bind Biotinylated human CD44, the EC50 is 2.865-5.099 ng/ml.</p> <p>Application Notes: We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference</p> |
