Glutathione Peroxidase (GSH-Px) Activity Colorimetric Assay Kit BYT-ORB1173236

Artikelname	Glutathione Peroxidase (GSH-Px) Activity Colorimetric Assay Kit
Artikelnummer	BYT-ORB1173236
Hersteller Artikelnummer	orb1173236
Alternativnummer	BYT-ORB1173236-48, BYT-ORB1173236-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Produktbeschreibung	GSH-Px catalyzes H ₂ O ₂ to oxidize GSH to produce GSSG, glutathione reductase (GR) catalyzes NADPH to reduce GSSG to regenerate GSH, while NADPH oxidizes to produce NADP ⁺ . NADPH has a characteristic absorption peak at 340 nm, while NADP ⁺ does not....
Anwendungsbeschreibung	Application Notes: GSH-Px catalyzes H ₂ O ₂ to oxidize GSH to produce GSSG, glutathione reductase (GR) catalyzes NADPH to reduce GSSG to regenerate GSH, while NADPH oxidizes to produce NADP ⁺ , NADPH has a characteristic absorption peak at 340 nm, while NADP ⁺ does not, NADPH dehydrogenation rate is determined by measuring the decrease rate of absorbance at 340 nm to calculate GSH-Px activity
