| Kategorie                | Antikörper                                                                                                                                                                                                    |
| Applikation              | ELISA, IF, IHC-P, WB                                                                                                                                                                                          |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                             |
| Immunogen                | Anti-PHAP I antibody (orb1239868) was raised against a peptide corresponding to 14 amino acids near the carboxy terminus of human PHAP I . The immunogen is located within the last 50 amino acids of PHAP I. |
| Konjugation              | Unconjugated                                                                                                                                                                                                  |
| Produktbeschreibung      | ANP32A Antibody...                                                                                                                                                                                            |
| Klonalität               | Polyclonal                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                       |
