### Simian PIIINP(Procollagen III N-Terminal Propeptide) ELISA Kit BYT-ORB3127057

Artikelname	Simian PIIINP(Procollagen III N-Terminal Propeptide) ELISA Kit
Artikelnummer	BYT-ORB3127057
Hersteller Artikelnummer	orb3127057
Alternativnummer	BYT-ORB3127057-48, BYT-ORB3127057-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Primate
Produktbeschreibung	Simian PIIINP(Procollagen III N-Terminal Propeptide) ELISA Kit...
Detektionsbereich	6.25-400 ng/mL
Sensitivitaet	2.19 ng/mL
Proben	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Simian PIIINP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Simian PIIINP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Simian PIIINP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Simian PIIINP in the samples is then determined by comparing the OD of the samples to the standard curve
