| Formulierung             | Powder                                                                                                                                                                                                                                                     |
| Target-Kategorie         | OX40                                                                                                                                                                                                                                                       |

Anwendungsbeschreibung

Application Notes: This protein carries a polyhistidine tag at the C-terminus. The protein has a calculated MW of 22.1 kDa. The protein migrates as 33-50 kDa under reducing (R) condition (SDS-PAGE) due to glycosylation
