Phalloidin - FITC, CAS [[915026-99-2]] BYT-ORB1289368

| | |
|--------------------------|---|
| Artikelname | Phalloidin - FITC, CAS [[915026-99-2]] |
| Artikelnummer | BYT-ORB1289368 |
| Hersteller Artikelnummer | orb1289368 |
| Alternativnummer | BYT-ORB1289368-300, BYT-ORB1289368-50 |
| Hersteller | Biorbyt |
| Kategorie | Biochemikalien |
| Applikation | IF |
| Konjugation | FITC |
| Produktbeschreibung | Phalloidin - FITC, FITC conjugated phalloidin is a green fluorescent cytoskeleton stain that binds to and labels F-actin. For most fluorescence imaging applications, cells should be fixed and permeabilized. Excitation/emission maxima lambda~496/516 n... |
| Molekulargewicht | 1177.27 |
| Formulierung | Lyophilized powder, and it is difficult to observe the trace amount. Please centrifuge before use, and add appropriate solvent to dissolve it. The solution after dissolution is almost transparent. |
| CAS Nummer | [915026-99-2] |
| Proben | formaldehyde-fixed, permeabilized tissue sections, cell cultures or cellfree experiments |
| Formel | C56H60N10O15S2 |

Anwendungsbeschreibung

Application Notes: This is a toxic substance and require caution during handling. It is recommended to wear a lab coat, mask, and disposable gloves
