## Product Datasheet

### Mouse Ovalbumin Specific Immunoglobulin G1 (OVA sIgG1) ELISA Kit BYT-ORB1291313

Artikelname	Mouse Ovalbumin Specific Immunoglobulin G1 (OVA sIgG1) ELISA Kit
Artikelnummer	BYT-ORB1291313
Hersteller Artikelnummer	orb1291313
Alternativnummer	BYT-ORB1291313-48, BYT-ORB1291313-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Mouse
Produktbeschreibung	Mouse OVA sIgG1 (Ovalbumin specific Immunoglobulin G1) ELISA Kit...
Konzentration	20 ng/mL
Detektionsbereich	0.32-20 ng/mL
Sensitivitaet	0.108 ng/mL
Proben	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 20 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse OVA sIgG1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse OVA sIgG1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse OVA sIgG1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse OVA sIgG1 in the samples is then determined by comparing the OD of the samples to the standard curve
