Hamster Low Density Lipoprotein (LDL) ELISA Kit BYT-ORB1291314

Artikelname	Hamster Low Density Lipoprotein (LDL) ELISA Kit
Artikelnummer	BYT-ORB1291314
Hersteller Artikelnummer	orb1291314
Alternativnummer	BYT-ORB1291314-48, BYT-ORB1291314-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Hamster
Produktbeschreibung	Hamster LDL (Low Density Lipoprotein) ELISA Kit...
Konzentration	400 ng/mL
Detektionsbereich	6.25-400 ng/mL
Sensitivitaet	2.62 ng/mL
Proben	serum, plasma and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 400 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Hamster LDL. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Hamster LDL. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Hamster LDL, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Hamster LDL in the samples is then determined by comparing the OD of the samples to the standard curve
