Mouse IgG2a Isotype Control Biotin Antibody, Clone: [MOPC-173], Monoclonal BYT-ORB222805

Artikelname	Mouse IgG2a Isotype Control Biotin Antibody, Clone: [MOPC-173], Monoclonal
Artikelnummer	BYT-ORB222805
Hersteller Artikelnummer	orb222805
Alternativnummer	BYT-ORB222805-0.1
Hersteller	Biorbyt
Kategorie	Antikörper
Applikation	ELISA, FC, ICC, IHC-Fr, IHC-P, IP, WB
Immunogen	The transplantable plasmacytoma MOPC-173 was induced by intraperitoneal injection of mineral oils into BALB/c mice.
Konjugation	Biotin
Produktbeschreibung	Mouse IgG2a Isotype Control (Biotin)...
Klonalität	Monoclonal
Konzentration	1 mg/ml
Klon-Bezeichnung	[MOPC-173]
Puffer	Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide

Anwendungsbeschreibung

Application Notes: Negative control: The reagent is intended as an isotype control to establish the amount of non-specific antibody binding. For your particular experiment, use the same concentration of this control antibody as the recommended working concentration of the antigen-specific antibody. Also, when working with prediluted antibodies, dilute the isotype control to the same concentration as is the concentration of the antigen-specific antibody in the prediluted antibody solution you are using. If under particular experimental conditions the background signal of the isotype control is too high (usually when working concentrations of used antibodies are above 10 µg/ml of incubation mixture), change the conditions of your experiment to reduce the background
