Product Datasheet

Human Pyruvate Kinase, Liver and RBC (PK) ELISA Kit BYT-ORB776064

Artikelname	Human Pyruvate Kinase, Liver and RBC (PK) ELISA Kit
Artikelnummer	BYT-ORB776064
Hersteller Artikelnummer	orb776064
Alternativnummer	BYT-ORB776064-48, BYT-ORB776064-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pyruvate Kinase, Liver And RBC(PK)....
Konzentration	100 ng/mL
Detektionsbereich	1.57-100 ng/mL
Sensitivitaet	0.6 ng/mL
UniProt	P30613
Proben	plasma

Anwendungsbeschreibung

Application Notes: standard: 100 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human PK. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human PK. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human PK, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human PK in the samples is then determined by comparing the OD of the samples to the standard curve
