## Product Datasheet

### Human Renalase (RNLS) ELISA Kit BYT-ORB777107

Artikelname	Human Renalase (RNLS) ELISA Kit
Artikelnummer	BYT-ORB777107
Hersteller Artikelnummer	orb777107
Alternativnummer	BYT-ORB777107-48, BYT-ORB777107-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Renalase(RNLS)....
Konzentration	200 ng/mL
Detektionsbereich	3.13-200 ng/mL
Sensitivitaet	1.35 ng/mL
UniProt	<a href="#">Q5VYX0</a>
Proben	serum, plasma and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 200 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human RNLS. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human RNLS. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human RNLS, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human RNLS in the samples is then determined by comparing the OD of the samples to the standard curve
