Product Datasheet

Rat Very Low Density Lipoprotein Receptor (VLDLR) ELISA Kit BYT-ORB780016

Artikelname	Rat Very Low Density Lipoprotein Receptor (VLDLR) ELISA Kit
Artikelnummer	BYT-ORB780016
Hersteller Artikelnummer	orb780016
Alternativnummer	BYT-ORB780016-48, BYT-ORB780016-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Rat
Produktbeschreibung	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Very Low Density Lipoprotein Receptor(VLDLR)....
Konzentration	50 ng/mL
Detektionsbereich	0.79-50 ng/mL
Sensitivitaet	0.32 ng/mL
UniProt	P98166
Proben	Tissue homogenates and other biological fluids.

Anwendungsbeschreibung

Application Notes: standard: 50 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat VLDLR. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat VLDLR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat VLDLR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat VLDLR in the samples is then determined by comparing the OD of the samples to the standard curve
