Rat Farnesoid X Receptor (FXR) ELISA Kit BYT-ORB780821

Artikelname	Rat Farnesoid X Receptor (FXR) ELISA Kit
Artikelnummer	BYT-ORB780821
Hersteller Artikelnummer	orb780821
Alternativnummer	BYT-ORB780821-48, BYT-ORB780821-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Rat
Produktbeschreibung	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Farnesoid X Receptor(FXR)....
Konzentration	10 ng/mL
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.051 ng/mL
UniProt	Q62735
Proben	Tissue homogenates, cell lysates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat FXR. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat FXR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat FXR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat FXR in the samples is then determined by comparing the OD of the samples to the standard curve
