Product Datasheet

Rabbit Aspartate Aminotransferase (AST) ELISA Kit BYT-ORB781441

Artikelname	Rabbit Aspartate Aminotransferase (AST) ELISA Kit
Artikelnummer	BYT-ORB781441
Hersteller Artikelnummer	orb781441
Alternativnummer	BYT-ORB781441-48, BYT-ORB781441-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Rabbit
Produktbeschreibung	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Aspartate Aminotransferase(AST)....
Konzentration	40 U/L
Detektionsbereich	0.63-40 U/L
Sensitivitaet	0.249U/L
UniProt	P12343
Proben	Serum, plasma, tissue homogenates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 40 U/L. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rabbit AST. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rabbit AST. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rabbit AST, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rabbit AST in the samples is then determined by comparing the OD of the samples to the standard curve
