Rat Procollagen III C-Terminal Propeptide (PIIICP) ELISA Kit BYT-ORB781521

Artikelname	Rat Procollagen III C-Terminal Propeptide (PIIICP) ELISA Kit
Artikelnummer	BYT-ORB781521
Hersteller Artikelnummer	orb781521
Alternativnummer	BYT-ORB781521-48, BYT-ORB781521-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Rat
Produktbeschreibung	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Procollagen III C-Terminal Propeptide(PIIICP) protein. Standards or samples are added to the appropriate mi...
Konzentration	200 ng/mL
Detektionsbereich	3.13-200 ng/mL
Sensitivitaet	0.83 ng/mL
Proben	serum, plasma, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 200 ng/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Rat PIIICP protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat PIIICP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat PIIICP in the samples is then determined by comparing the OD of the samples to the standard curve
