General Sphingomyelin (SPH) ELISA Kit BYT-ORB782007

Artikelname	General Sphingomyelin (SPH) ELISA Kit
Artikelnummer	BYT-ORB782007
Hersteller Artikelnummer	orb782007
Alternativnummer	BYT-ORB782007-48, BYT-ORB782007-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	All
Produktbeschreibung	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Sphingomyelin (SPH) protein. Standards or samples are added to the appropriate microtiter plate wells then w...
Konzentration	400 µg/mL
Detektionsbereich	6.25-400 µg/mL
Sensitivitaet	1.82 µg/mL
Proben	Serum, plasma and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 400 µg/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with SPH protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to SPH. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of SPH in the samples is then determined by comparing the OD of the samples to the standard curve
