### Human cancer Antigen 27-29 (CA 27-29) ELISA Kit BYT-ORB782396

Artikelname	Human cancer Antigen 27-29 (CA 27-29) ELISA Kit
Artikelnummer	BYT-ORB782396
Hersteller Artikelnummer	orb782396
Alternativnummer	BYT-ORB782396-48, BYT-ORB782396-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to CA 27-29(cancer antigen 27-29)....
Konzentration	100 U/mL
Detektionsbereich	1.57-100 U/mL
Sensitivitaet	0.8 U/mL
Proben	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.

Anwendungsbeschreibung

Application Notes: standard: 100 U/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human CA 27-29. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human CA 27-29. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human CA 27-29, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human CA 27-29 in the samples is then determined by comparing the OD of the samples to the standard curve
