## Product Datasheet

### Hamster Interleukin 5 (IL5) ELISA Kit BYT-ORB782475

Artikelname	Hamster Interleukin 5 (IL5) ELISA Kit
Artikelnummer	BYT-ORB782475
Hersteller Artikelnummer	orb782475
Alternativnummer	BYT-ORB782475-48, BYT-ORB782475-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Hamster
Produktbeschreibung	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Interleukin 5(IL5)....
Konzentration	500 pg/mL
Detektionsbereich	7.82-500 pg/mL
Sensitivitaet	3 pg/mL
Proben	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 500 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Hamster IL5. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Hamster IL5. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Hamster IL5, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Hamster IL5 in the samples is then determined by comparing the OD of the samples to the standard curve
