## Product Datasheet

### **Dog Secretory Leukocyte Peptidase Inhibitor (SLPI) ELISA Kit BYT-ORB782494**

Artikelname	Dog Secretory Leukocyte Peptidase Inhibitor (SLPI) ELISA Kit
Artikelnummer	BYT-ORB782494
Hersteller Artikelnummer	orb782494
Alternativnummer	BYT-ORB782494-48, BYT-ORB782494-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Canine
Produktbeschreibung	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Secretory Leukocyte Peptidase Inhibitor(SLPI)....
Konzentration	20 ng/mL
Detektionsbereich	0.32-20 ng/mL
Sensitivitaet	0.116 ng/mL
Proben	Serum, plasma, tissue homogenates, cell lysates, urine, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 20 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog SLPI. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog SLPI. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog SLPI, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Dog SLPI in the samples is then determined by comparing the OD of the samples to the standard curve
