Rat Endocab IgG ELISA Kit BYT-ORB782549

Artikelname	Rat Endocab IgG ELISA Kit
Artikelnummer	BYT-ORB782549
Hersteller Artikelnummer	orb782549
Alternativnummer	BYT-ORB782549-48, BYT-ORB782549-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Rat
Produktbeschreibung	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Endocab IgG...
Konzentration	10 ng/mL
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.058 ng/mL
Proben	serum, plasma, tissue homogenates, cell lysates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat Endocab IgG. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat Endocab IgG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat Endocab IgG, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat Endocab IgG in the samples is then determined by comparing the OD of the samples to the standard curve
