### General Actin Beta (ACTb) ELISA Kit BYT-ORB782627

Artikelname	General Actin Beta (ACTb) ELISA Kit
Artikelnummer	BYT-ORB782627
Hersteller Artikelnummer	orb782627
Alternativnummer	BYT-ORB782627-48, BYT-ORB782627-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	All
Produktbeschreibung	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Actin Beta(ACTb) protein. Standards or samples are added to the appropriate microtiter plate wells then wit...
Konzentration	10 ng/mL
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.057 ng/mL
Proben	cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 10 ng/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with ACTb protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to ACTb. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of ACTb in the samples is then determined by comparing the OD of the samples to the standard curve
