### GHITM Rabbit Polyclonal Antibody, Unconjugated BYT-ORB865519

|                          |                                                                                                                                      |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | GHITM Rabbit Polyclonal Antibody, Unconjugated                                                                                       |
| Artikelnummer            | BYT-ORB865519                                                                                                                        |
| Hersteller Artikelnummer | orb865519                                                                                                                            |
| Alternativnummer         | BYT-ORB865519-100                                                                                                                    |
| Hersteller               | Biorbyt                                                                                                                              |
| Wirt                     | Rabbit                                                                                                                               |
| Kategorie                | Antikörper                                                                                                                           |
| Applikation              | ELISA, FC, ICC, IF, IHC, WB                                                                                                          |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                    |
| Immunogen                | E.coli-derived human GHITM recombinant protein (Position: M1-K345).                                                                  |
| Konjugation              | Unconjugated                                                                                                                         |
| Produktbeschreibung      | Anti-GHITM Antibody. Tested in ELISA, Flow Cytometry, IF, IHC, ICC, WB applications. This antibody reacts with Human, Mouse, Rat.... |
| Klonalität               | Polyclonal                                                                                                                           |
| Konzentration            | 500 µg/ml                                                                                                                            |
| Molekulargewicht         | 37 kDa                                                                                                                               |
| UniProt                  | <a href="#">Q9H3K2</a>                                                                                                               |
| Puffer                   | Each vial contains 4 mg Trehalose, 0.9 mg NaCl, 0.2 mg Na <sub>2</sub> HPO <sub>4</sub> .                                            |

|                        |                                                                                                                                                                                                                                                                                 |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                                     |
| Target-Kategorie       | Growth hormone-inducible transmembrane protein                                                                                                                                                                                                                                  |
| Application Verdünnung | Western blot, 0.25-0.5 µg/ml, Human, Mouse, Rat<br>Immunohistochemistry(Paraffin-embedded Section), 2-5 µg/ml,<br>Human, Rat Immunocytochemistry/Immunofluorescence, 5 µg/ml,<br>Human Flow Cytometry (Fixed), 1-3 µg/1x10 <sup>6</sup> cells, Human ELISA,<br>0.1-0.5 µg/ml, - |
