| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human Ig kappa chain                                                                                                                                                                                                                  |
| Produktbeschreibung      | This MAb is specific to kappa light chain of immunoglobulin and shows no cross-reaction with lambda light chain or any of the five heavy chains. In mammals, the two light chains in an antibody are always identical, with only one type of light chain, ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
