Product Datasheet

Camostat (mesylate) ABI-15-4008-5

Artikelname	Camostat (mesylate)
Artikelnummer	ABI-15-4008-5
Hersteller Artikelnummer	15-4008-5
Alternativnummer	ABI-15-4008-5-5MG
Hersteller	Abeomics
Kategorie	Sonstiges
Produktbeschreibung	Molecular Formula: C ₂₀ H ₂₂ N ₄ O ₅ . CH ₃ SO ₃ H Molecular Weight: 494.5 Camostat is a trypsin-like protease inhibitor known to inhibit trypsin and various inflammatory proteases including plasmin, kallikrein, and thrombin. A special diet containing 1 mg/g ca...
Reinheit	>=98%
Application Verdünnung	A stock solution may be made by dissolving the camostat (mesylate) in the solvent of choice. Camostat (mesylate) is soluble in organic solvents such as DMSO and dimethyl formamide, which should be purged with an inert gas. The solubility of camostat (mesy
