| Alternativnummer         | ABI-32-5472-0.5MG                                                                                                                                                                                                                                             |
| Hersteller               | Abeomics                                                                                                                                                                                                                                                      |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | The E.coli derived recombinant protein contains the HCV NS5 Genotype 3a immunodominant regions, amino acids 2212-2313. The protein is fused to a GST tag at N-terminus. HCV is a small 50nm, enveloped, single-stranded, positive sense RNAvirus in the fa... |
| Reinheit                 | HCV NS5 Genotype-3a protein is >95% pure as determined by 10% PAGE (coomassie staining).                                                                                                                                                                      |
| Antibody Type            | Recombinant Antibody                                                                                                                                                                                                                                          |
