| Hersteller Artikelnummer | 32-9286                                                                                                                                                                                                                                                       |
| Alternativnummer         | ABI-32-9286-50UG                                                                                                                                                                                                                                              |
| Hersteller               | Abeomics                                                                                                                                                                                                                                                      |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | Source : Human Cells,CD5 Antigen-Like (CD5L) is a soluble protein that belongs to group B of the scavenger receptor cysteine-rich (SRCR) superfamily and contains three SRCR domains. CD5L is a secreted glycoprotein and expressed by macrophages present... |
| Reinheit                 | Greater than 95% as determined by reducing SDS-PAGE.                                                                                                                                                                                                          |
| Antibody Type            | Recombinant Antibody                                                                                                                                                                                                                                          |
