| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Immunogen                | Mouse BM10-37 cytotoxic T lymphocytes were used as immunogen for this antibody.                                                                                                                                                                               |
| Konjugation              | FITC                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | CD3 is one of the several invariant chains that the variable chains of TCR: Alpha beta or Gamma delta TCR contains, and which support surface TCR expression and transduce the TCR signal. CD3D, along with four other CD3 subunits, binds either TCR alph... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [145-2C11]                                                                                                                                                                                                                                                    |
