## Product Datasheet

### **Phospho-Src (Tyr416) (Clone: C4) rabbit mAb SureLight488 conjugate, Clone: [SrcY416-C4], SureLight 488, Rabbit, Monoclonal ABI-12-4064**

|                          |                                                                                                                                                                                                                                                               |

| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | A synthetic phospho-peptide corresponding to residues surrounding Tyr416 of human phospho Src                                                                                                                                                                 |
| Konjugation              | SureLight 488                                                                                                                                                                                                                                                 |
| Produktbeschreibung      | Proto-oncogene tyrosine-protein kinase Src (c-Src, Src), is a non-receptor tyrosine kinase. Src phosphorylates specific tyrosine residues in other proteins and is involved in signal transduction and is important in human tumor development and poor pr... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [SrcY416-C4]                                                                                                                                                                                                                                                  |

|                        |                                                                                                                                                                                                                               |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Conjugated                                                                                                                                                                                                                    |
| Application Verdünnung | For flow cytometric staining, the suggested use of this reagent is 5 µL per million cells or 5 µL per 100 µL of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. |
