| Applikation              | FACS                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A synthetic phospho-peptide corresponding to residues surrounding Ser271 and Thr275 of human MKK7                                                                                                                                                             |
| Konjugation              | APC                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | MKK7 is a dual specificity protein kinase which acts as an essential component of the MAP kinase signal transduction pathway. It is an essential component of the stress-activated protein kinase/c-Jun N-terminal kinase (SAP/JNK) signaling pathway. Wit... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |

| Formulierung           | Conjugated                                                                                                                                                                                                                                                      |
| Application Verdünnung | For flow cytometric staining, the suggested use of this reagent is 5 µL per million cells or 5 µL per 100 µL of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. See product image legends for add |
