## Product Datasheet

### **Phospho-MSK1 (Thr581) (Clone: A5) rabbit mAb PE conjugate, Clone: [MSK1T581-A5], Rabbit, Monoclonal ABI-12-4195**

|                          |                                                                                                                                                                                                                                                               |

| Immunogen                | A synthetic phospho-peptide corresponding to residues surrounding Thr581 of human phospho MSK1                                                                                                                                                                |
| Konjugation              | PE                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | MSK1 (mitogen and stress activated protein kinase 1, phospho MSK1) is activated by Erk in response to growth factors and by and p38 in response to cellular stress (1). MSK1 is similar to RSK1 in that it has two kinase domains and a connecting regulat... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MSK1T581-A5]                                                                                                                                                                                                                                                 |

|                        |                                                                                                                                                                                                                                                                 |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Conjugated                                                                                                                                                                                                                                                      |
| Application Verdünnung | For flow cytometric staining, the suggested use of this reagent is 5 µL per million cells or 5 µL per 100 µL of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. See product image legends for add |
