## Product Datasheet

### **Phospho-MEK1/2 (Ser217/221) (Clone: H2) rabbit mAb PE conjugate, Clone: [MEK12S217S221-H2], Rabbit, Monoclonal ABI-12-4247-10**

|                          |                                                                                                                                                                                                                                                               |

| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A synthetic phospho-peptide corresponding to residues surrounding Ser217/221 of human phospho MEK1/2.                                                                                                                                                         |
| Konjugation              | PE                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | Mitogen-activated protein kinase (MAPK) is the main building block of the intracellular signaling network. The signals are initiated by activation of a small G protein (e.g., Ras), followed by a sequential activation of several sets of protein kinase... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MEK12S217S221-H2]                                                                                                                                                                                                                                            |

|                        |                                                                                                                                                                                                                               |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Conjugated                                                                                                                                                                                                                    |
| Application Verdünnung | For flow cytometric staining, the suggested use of this reagent is 5 µL per million cells or 5 µL per 100 µL of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. |
