## Product Datasheet

### **Phospho-NFkB p65 (Ser529) (Clone: H3) rabbit mAb APC conjugate, Clone: [NFkBp65S529-H3], Rabbit, Monoclonal ABI-12-4319-10**

|                          |                                                                                                                                                                                                                                                               |

| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | A synthetic phospho-peptide corresponding to residues surrounding Ser529 of human phospho-NFkB p65                                                                                                                                                            |
| Konjugation              | APC                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | The nuclear factor kB (NFkB)/Rel family of transcription factors play a pivotal role in inflammatory and immune responses (1,2). NF-kappa-B is present in almost all cell types and is involved in many biological processes including immunity, inflammat... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [NFkBp65S529-H3]                                                                                                                                                                                                                                              |

|                        |                                                                                                                                                                                                                                                                 |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Conjugated                                                                                                                                                                                                                                                      |
| Application Verdünnung | For flow cytometric staining, the suggested use of this reagent is 5 µL per million cells or 5 µL per 100 µL of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. See product image legends for add |
