| Applikation              | FACS                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | A synthetic phospho-peptide corresponding to residues surrounding Ser139 of human phospho MCM2                                                                                                                                                                |
| Konjugation              | APC                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | The members of minichromosome maintenance (McM) protein family 2-7 were originally identified as a group of proteins essential for DNA replication (chromosomal maintenance (1,2). They share common sequence homology to each other in their nucelotide-b... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MCM2S139-B12]                                                                                                                                                                                                                                                |

|                        |                                                                                                                                                                                                                                                                 |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Conjugated                                                                                                                                                                                                                                                      |
| Application Verdünnung | For flow cytometric staining, the suggested use of this reagent is 5 µL per million cells or 5 µL per 100 µL of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. See product image legends for add |
