| Immunogen                | Peptide sequence around phosphorylation site of serine 380(R-Y-S(p)-D-T) derived from Human PTEN.                                                                                                                                                             |
| Produktbeschreibung      | Tumor suppressor. Acts as a dual-specificity protein phosphatase, dephosphorylating tyrosine-, serine- and threonine-phosphorylated proteins. Also acts as a lipid phosphatase, removing the phosphate in the D3 position of the inositol ring from phosph... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
