| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                      |
| Immunogen                | Recombinant fragment of human TOX3 protein (around aa 251-389) (Exact sequence is proprietary)                                                                                                                                                                             |
| Produktbeschreibung      | It recognizes a 63kDa protein, which is identified as TOX3. It contains a high mobility group (HMG)-box, which regulates Ca <sup>2+</sup> -dependent transcription in neurons through interaction with the cAMP-response-element-binding protein (CREB). TOX3 appears t... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                 |
| Klon-Bezeichnung         | [TOX3/1124]                                                                                                                                                                                                                                                                |
| NCBI                     | <a href="#">27324</a>                                                                                                                                                                                                                                                      |

|                        |                                                                     |
