| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa 39-191) of human CD274 (PD-L1) protein (exact sequence is proprietary)                                                                                                                                                        |
| Produktbeschreibung      | PD-L1 is a checkpoint regulator in immune cells, it is expressed on immune or non-hematopoietic cells. Expression of the protein is seen during pregnancy where it has a role in suppressing the immune system. PD-L1 induces an inhibitory signal in acti... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
